

*Hello, I'm Georgina Ritchie.*

*Thank you for visiting my website. For more than 20 years I have been guiding people through difficult life challenges in business, personal relationships and health.*

*I am not a licensed psychotherapist. I am a Spiritual Counselor, psychic intuitive, teacher and healer. That continues but my work now is more focused on those who want to live in awakened consciousness and free themselves from the anger, guilt and fear which have limited them from having the life experiences they want and being the joyful person they chose to be.*

*I have been writing a book with the title "Making Friends With God". I would like to work with clients who want to experientially help me finish it by unblocking the power and energy that will enable them to live in peace of mind, good health and happiness.*

*Since I am a psychic intuitive the work I do is very personal. It releases resistance and blockages to manifesting your desires. Please email me so I can contact you to determine if I can be of help and support in your life's journey.*

*My email is [georgina\\_ritchie@yahoo.com](mailto:georgina_ritchie@yahoo.com)*

*Thank you.*
